

ANALYZE THE HAIR OF THE CUSTOMER

What is the structure of the hair?

Straight / Wavy / Curly / Frizzy

How thick is the hair?

Thin / Normal / Thick

How is the hair implant?

Little / Normal / A lot

What is the facial shape of the customer?

Round / Oval / Long / Wide

Has the hair been treated chemically?

Colored / Permed

If yes, what treatment? Has the customer colored their own hair, or was it done by a professional?

What is the desired haircut?

With what technique will you create this haircut?

Sometimes a customer shows a photo of a haircut that can not be achieved with his or her hair type. Always be honest about this before cutting. Take a good look at the facial form, structure and flow to be able to give proper advise!
